Year	Degree/Certificate	Institute	CGPA/%
2022 - 2026	B.Tech (CSE)	Prasad Institute of Technology (AKTU)	7.81
2022	Class XII	State Board	77.0%
2020	Class X	State Board	79.1%

SCHOLASTIC ACHIEVEMENTS

- DSA Proficiency:** Solved advanced data structure and algorithmic challenges on LeetCode using C++, focusing on time and space complexity optimization.
- Digital Impact:** Successfully deployed AKTU Prep, gaining 500+ active student registrations within the first few months.

TRAINING

Web Development with AI Aug 2025

Internshala Trainings

- Completed an intensive 8-week training program focusing on full-stack web development methodologies.
- Gained hands-on experience by integrating Artificial Intelligence modules into web applications.

AWS Certified AI Practitioner (Prep) Aug 2026

AWS Training & Certification

- Successfully completed the Official Practice Question Set for **AWS Certified AI Practitioner (AIF-C01)**.
- Developed a strong foundational understanding of AWS AI services, use cases, and cloud practitioner concepts.

COMPETITIONS & PUBLICATIONS

FixIt: Reliable Home Repair Services Oct 2025

IJSREM (Impact Factor: 8.586)

- Published in an Open Access, Peer-Reviewed Scholarly Journal (ISSN: 2582-3930).
- Detailed the architectural and technical innovations behind the FixIt Marketplace platform, showcasing modern full-stack methodologies.

TECHNICAL SKILLS

Languages: C/C++, JavaScript (ES6+), Python, SQL, HTML, CSS

Libraries & Frameworks: React.js, Node.js, Express.js, Redux Toolkit, Tailwind CSS, Pandas, NumPy, Scikit-Learn, TensorFlow

Tools & Platforms: Git, GitHub, VS Code, Postman, Clerk (Auth), Vercel, Render

Core Expertise: Data Structures & Algorithms, Machine Learning, Data Analysis, RESTful APIs, System Design, Problem Solving

POSITIONS OF RESPONSIBILITY

Project Lead – FixIt Marketplace Major Project

- Spearheaded a cross-functional team of 5 members to architect, develop, and deliver the FixIt full-stack platform.
- Successfully managed project lifecycle, achieving a **Top 3 Ranking** among all final-year departmental submissions.

KEY PROJECTS

Adaptive Self-Learning AI Agent AI / ML Project

Python, Gemini API, Streamlit, RAG (Context Memory)

- Engineered an interactive Web-based AI Agent capable of retaining long-term user context using local JSON-based vector/memory storage.
- Implemented a feedback-loop mechanism that enables continuous self-learning, allowing users to correct AI behavior and personalize responses dynamically.
- Architected a seamless integration with **Google's Gemini API** via OpenAI-compatible SDKs, ensuring high-speed, cost-effective inference.
- Designed and deployed a highly responsive Chatbot User Interface utilizing **Streamlit**, featuring real-time conversational state management and dynamic memory visualization.

AKTU Prep Platform 2023 – 2024

MERN Stack, Clerk, Tailwind CSS

- Developed a massive digital repository for students, hosting over **9GB** of academic materials and video lectures.
- Integrated secure authentication using **Clerk** and optimized material discovery through a semester-based filtering system.
- Built a highly responsive and fluid interface that currently serves a growing community of **500+ active users**.

Fixit Marketplace Full-Stack Project

MERN Stack, Redux Toolkit, REST API

- Engineered a full-stack service marketplace connecting local providers with users through a real-time booking ecosystem.
- Implemented advanced state management with **Redux Toolkit** to synchronize data seamlessly across the booking dashboard.
- Architected efficient **RESTful APIs** to handle service requests, tracking, and provider management with high reliability.

BookMaker Ultimate React.js Project

React.js, Tailwind CSS

- Developed an advanced, responsive **WYSIWYG editor** tailored for professional typesetting and A4 paper simulation.
- Integrated seamless **PDF export functionality** and mathematical equation support for complex document creation.
- Designed a highly intuitive and modern user interface using **Tailwind CSS** for superior user experience.
